

### Guidelines for CMCO Peripheral Centres

In order to facilitate poor patients who do not possess white card (BPL ration card), Government through G.O.Ms.No.1012, dated 12.08.2008 established CMCO referral centre at the Camp Office of Hon'ble Chief Minister. These patients have to physically approach the CMCO centre with proof of residence where a temporary referral card with the photograph of the patient will be issued to undergo cashless treatment in a network hospital for identified diseases under Rajiv Aarogyasri scheme.

#### Peripheral Centres:

Trust established six (6) peripheral centres in the following places to facilitate the poor patients living in the districts to avail treatment under Aarogyasri scheme in **Govt. Network Hospitals** across the State.

S.No.	City / Town	Location	In-charge	Contact No.
1	Kurnool	Govt. General Hospital	District Coordinator	8374445436
2	Warangal	MGM Hospital	District Coordinator	8374445440
3	Kakinada	Govt. General Hospital	District Coordinator	9701345789
4	Visakhapatnam	Govt. Hospital for Chest & Communicable Diseases	District Coordinator	8374445438
5	Vijayawada	1. Govt. General Hospital (old) 2. Govt. General Hospital (New)	District Coordinator	8374445435
6	Tirupati	SVIMS	District Coordinator	9701345987

The Trust Board through resolution No. 236/2011 approved the establishment of above centres with following guidelines.

- (i) The procedure for issue of referral cards shall be followed as per the guidelines issued in the G.O.Ms.No.1012 Revenue (CMRF) Department, dated 12.08.2008.
- (ii) The beneficiaries from the above peripheral centres will be permitted to undergo cashless treatment under the scheme in Government Network hospitals only.

Accordingly, the following guidelines are issued to facilitate issue of referral cards by these peripheral centres. However, Hyderabad centre shall continue to follow the existing guidelines as per the G.O.Ms.1012 and continue to issue referral cards to all the network hospital both Govt. and private across the state.

**Procedure laid down as per G.O.Ms.No.1012:**

As per G.O. such patients who are not having White Ration Card or any card and suffering from identified diseases have to personally come to the Trust clinic that is made functional at CM's Camp Office between 8 am to 12 noon with relevant medical reports and present any one of the following **identification documents** issued in Andhra Pradesh in original:

- i) Pink Ration Card issued by AP Civil Supplies Dept.
- ii) Election Photo Identity Card (EPIC)
- iii) Job cards issued under NREGP
- iv) ID Card issued to Bidi Workers by Min. of Labour
- v) Certificate of Physical Handicap
- vi) Freedom Fighter ID Card
- vii) Pension Document
- viii) SC/ST/BC Certificate
- ix) Students Identity Card issued by recognized Educational Institutions;
- x) Pass book with photograph issued by Public Sector Bank / Post Office
- xi) PAN Card
- xii) Driving License, and
- xiii) Passport

The centre will generate the referral card with digital photograph which will enable the cashless treatment under Aarogyasri scheme.

It may be noted that the CMCO referral centres are additional facility provided for issuing of temporary eligibility card through the referral card on due verification of identity and nativity of the patient. Hence, this facility may not be used in critically ill patients as the patient has to appear at the centre in person. However, in exceptional cases, the case may be brought to the centre in ambulance with full medical attendance for issue of referral card. The network hospital shall own the responsibility for shifting with proper medical assistance after duly satisfying with the fitness of the patient for such transport.

**Guidelines for peripheral centres:**

- 1) Any patient can approach any of the referral centres irrespective of his native district.
- 2) Patient **must** approach the centre **in person** with identity and residence proof of any of the above documents along with medical records.

- 3) However, the appearance **in person is exempted** for issuing fresh referral card in case of :
- i) Subsequent Haemodialysis cycles
  - ii) Subsequent Chemotherapy cycles
  - iii) Additional procedures / therapies for the admitted patient during the same hospitalisation to enable the hospital to raise additional pre-authorisation.

In these cases, the referral card will be issued on request letter from the network hospital to be presented by an attendant at the same CMCO centre. The centre shall utilise the photographic database of the patient to generate fresh referral card. However, these referral cards shall have same number with number of renewal being mentioned after the symbol (/).

**For eg:** If the number of referral card given first time is *CMCO/RAS22079/2011* then the referral card given for the second time shall be *CMCO/RAS22079/01/2011*.

- 4) The medical officer at the centre shall verify the medical records and proof of identity and residence.
- 5) The medical officer may issue referral card to any of the Government Network Hospital of patient's choice if the patient is suffering from identified diseases of 938 under Aarogyasri scheme
- 6) The referral card issued from these centres will enable the patients to avail cashless treatment in **Govt. Network Hospitals** only. Hence referral should be made to Government Network Hospital of patient's choice and availability of specialty after being counselled by the medical officer.
- 7) The medical officer at the centre shall counsel the patient and help in choosing the **Govt. Network Hospital** based on the availability of specialty.
- 8) If the patient is suffering from other than 938 diseases, the patient shall be counselled and referred to nearby government hospital.
- 9) The procedure code mentioned in the CMCO referral card is indicative and based on the preliminary evaluation of the patient. Hence, the network hospital will be permitted to raise pre-authorisation with changed procedure code if required.
- 10) Aarogyamithra posted at CMCO centre shall capture the digital photograph of the patient and register online to generate referral card.
- 11) The validity of referral card is 10 days. The network hospital shall raise pre-authorisation within these 10 days utilising online registration of CMCO.

12) The biometric registration of patients shall be obtained as per the guidelines stated below.

**I. Biometric registration:** Capturing digital image (finger impression) of the patient while registering online for the first time in a network hospital.

The details of the procedure are given below.

**Registration of the digital impression:** Aarogyamithra at CMCO shall obtain the digital image (finger impression) using the device in the following manner while registering the patient online at the first instance.

- a. Capture the left hand thumb impression
- b. Capture the right hand thumb impression if point (a) is not possible
- c. Capture the right index finger impression if points (a) and (b) are not possible
- d. Capture any of the finger impression if (a), (b) and (c) are not possible

The above possibilities arise out of absence of fingers at birth, loss of fingers due to injury or loss of skin in burns, accidents etc.,

Aarogyamithra at CMCO shall enter the details of the finger from which impression was obtained. This will facilitate verification at the time of discharge, readmission are repeated procedures of same treatment.

*(A diagrammatic representation depicting the fingers with their nomenclature is enclosed for ready reference)*

The list of Government Network Hospitals is enclosed for ready reference. The list is also available online in the website.
